and 40 mm in diameter. The centre of the base has specific housing for the central column.

Central column made from steel tube 60 mm in diameter and 1.5 mm thick. Three different heights: 500, 680 and 990 mm.

A 4 mm thick, machine-tooled plate is welded to each end of the tube, with 3 holes to screw the tube to the base and the crown. An axle welded to the top plate helps to position the table top correctly.

The base and column are finished with a fusion bonded epoxy coating in white RAL 9002 or black RAL 9004, 30% matt, textured.

Capital

Made of laser-cut steel plate, 5 mm thick, with different holes to fix the tube and the table top.

It has 2 rod hooks, 5 mm thick and welded to the plate, used to hang bags, backpacks and helmets.

Table top

Made from 8 mm thick HPL, with a rounded edge, finished in black or white. The underside is machined to position and attach the crown with wood screws.
