# Kei

Bulo Designers

Pebbles on the beach or river banks are irregular and random yet they fit and belong together. This is the concept that "inspired" the modular system Kei. The elements can be configured in a myriad of different ways and allows for easy re-configuration as it's free of the grid planning systems. Kei creates an organic landscape when grouped together or used as an individual shape. The table tops are MDF with powder coat finishes and the bases are available in chrome or coffee bean lacquer.

Kei is een modulaire bureaucollectie, geïnspireerd op de organische structuur van keien op een strand of in een rivier. De individuele elementen passen op vele manieren bij elkaar en kunnen vlot gehergroepeerd worden. Hierdoor ontstaat een verrassende kantoor lay-out. De bladen zijn gemaakt van gepoederlakt MDF en het onderstel is verkrijgbaar in chroom of gelakt in de kleur koffieboon.

Kei est un concept de bureau modulaire et flexible, inspiré par la forme organique de galets sur une plage qui peuvent s'assortir et qui sont faciles à regrouper, créant ainsi une toute autre approche du bureau paysager. Les tablettes sont réalisées en MDF laqué en poudre. Le piètement est disponible en chrome ou laqué couleur grain de café.
