

RS#Dining

by RAFAEL RODRÍGUEZ & JOSÉ ANDRÉS

The RS#Dining table is a rather unusual dining table; it's a converted foosball table. In fact, it's both things at once: a foosball table and a dining table. You can use it for eating, playing, for eating while you play or for playing while you eat. It's up to you.

The idea is both simple and original. We've placed a glass top on our classic and hard-wearing RS#2 foosball table, turning it into a fun, foosball-themed dining table.

This product is a fusion of gastronomy and design. The internationally renowned chef José Andrés fell in love with the RS#2 foosball table and was keen to incorporate it in his culinary universe, beginning with his Jaleo restaurants in Washington and Las Vegas. No sooner said than done.

“Gastronomy meets playtime with the RS#Dining table. More than a table, it’s a special ingredient in your restaurant.”
