

By Yoursself

by STONE DESIGNS

By yoursself is a bookshelf which is always to your liking. Because you build it yourself from individual units, to get it the size and shape you want. And because you can combine the colours however you fancy. The result is just as you imagine. A strong, solid structure, which is also dynamic, as the shelves are slightly inclined to give a gentle sensation of movement.

The units are fixed together with 4 screws.

*“Robust, hard-wearing shelves that built yourself, module by module, until you get the shape you’re after. It’s called **By Yoursself** but you can call it whatever you want”*
