Jacques Biny

Français • Jacques Biny en 1955, fonde à Paris son atelier d'éclairage moderne Luminalite.

Moderne, précurseur, ce Designer-Éditeur né en 1913 développe sur 30 ans près de 400 modèles. Jacques Biny, est un homme rigoureux, qui n'a cessé de travailler pour améliorer le

confort par la lumière dans l'habitat. La priorité donnée à la fonction, l'économie de moyens dans la recherche formelle suggèrent certains parallèles avec le courant artistique américain du Minimalisme apparu au milieu des années 60, ce qui explique l'engouement des collectionneurs autant aux États-Unis qu'en Europe.

Efficacité, simplicité, sobriété, élégance, refus de l'ostentatoire sont les dénominateurs communs du travail de Jacques Biny.

Ce sont pour ces qualités que nous avons choisi d'éditer les Box et le Spot de Jacques Biny.

BINY™

de Jacques Biny

English • In 1955, **Jacques Biny** opened Luminalite, his workshop for producing modern lighting. Modern, before its time, the Designer-Manufacturer who was born in 1913 developed over 400 models during a 30 year career. Jacques Biny's hallmark was rigour and he never stopped in his quest to improve how homes were lit. Functionality was primary, the lack of superfluity in the form reminiscent of the minimalist movement that was gaining currency in American art during the 1960's, which may go to explain why his work is as popular with American collectors as it is with Europeans.

Efficiency and simplicity, restraint, elegance and modesty are the common denominators in Jacques Biny's work.

They are the same qualities that inspired us to reproduce Jacques Biny's Box lights.

Deutsch • Jacques Biny, geboren 1913, gründet 1955 in Paris sein erstes Atelier "Luminalit" zur Herstellung moderner Leuchten. Dieser Designer und Verleger entwickelt als moderner Vorläufer rund 400 Modelle in 30 Jahren.

Jacques Biny ist ein gewissenhafter Mann, der unablässig arbeitet, um den Komfort des Lebensraumes durch die Beleuchtung zu verbessern. Die Priorität gilt der Funktion. Die Einsparung in

der Formensuche evoziert einige Parallelen zur amerikanischen Stilrichtung des Minimalismus, aufgekommen in der Mitte der 60er Jahre. Diese Tatsache erklärt die Begeisterung für Biny Modelle sowohl in Amerika als auch in Europa.

Effizienz, Schlichtheit, Zurückhaltung, Eleganz, betonte Unauffälligkeit sind die gemeinsamen Nenner der Werke Jacques Biny.

Es sind diese Vorzüge, die uns ermutigt haben, die "Box de Lumière" von Jacques Biny zu verlegen.

Italiano • Nel 1955 Jacques Biny fondò a Parigi il proprio laboratorio d'illuminazione moderna Luminalite.

Questo Progettista-Produttore moderno e precursore dei tempi, nato nel 1913, sviluppa nel corso di 30 anni quasi 400 modelli. Jacques Biny è un uomo rigoroso, che non ha mai smesso di lavorare per migliorare il comfort nell'abitazione attraverso l'illuminazione. La priorità data alla funzione dell'oggetto e l'economia di mezzi nella ricerca formale suggeriscono alcuni parallelismi con la corrente artistica americana del Minimalismo, comparsa nella metà degli anni Sessanta, il che ne spiega la popolarità tra i collezionisti sia negli Stati Uniti che in Europa.

Efficienza, semplicità, sobrietà, eleganza, rifiuto dell'ostentazione sono i denominatori comuni dell'opera di Jacques de Biny.

È per queste caratteristiche che abbiamo deciso di realizzare i Box de lumière di Jacques Biny.

Estas son las cualidades por las que hemos decidido editar los Box de luz de Jacques Biny.
