A reunion of blown glasses, each one differently shaped. Several and varied compositions are possible. Shapeless clouds where light crosses and seeps through. Endless and changing enlightening effects. You will get the sensation of beaming beyond the walls and finding yourself all of a sudden en plein air under a spring-like sky. It reminds me of the sea. The turquoise water, beyond the green of the ancient olive trees, the white limestone walls, the warm golden stone and the red soils. It reminds me of the sky.
