

# COTTAGE

Breathing Space – It is between the spaces we get room to breath

Cottage is an architectural storage; a hybrid between sculpture and function. With dynamic modules that can change use from one day to another, Cottage questions the traditional definition of storage.

A larger, shared cabinet for the entire team can be dedicated to any particular project. Your personal belongings get their own locker. By programming the lockable cabinets, they can be occupied by different users for different needs. The open modules furnish creativity. A structure with changing content, for all.

Cottage won 2019 German Design Award for excellent product design.

# FRAME

Shadow play over the surface of inner depth.

Everything is about relationships: Shadow to light, surface to depth. The distance between us. With a deeper meaning, Frame gives life to movement in storage.

Create shadow play and dynamics with frames and modules where the square is the base. By combining different materials and colors, you can build voids, and create relationships.

Lightly chamfered edges, precisely joined corners, and high finish, contribute to an exclusive expression. But if you get really close, it is the surface you notice, among the shadows. Velvety...

German Design Award Special 2019

“The sculptural and figural design of the metal construction provide a young and spontaneous look, giving spaces a distinctive identity. Storage room furniture with an interesting form that is also functional.”

- Jury statement

“The idea behind Frame was to create a creative canvas. Our inspiration came from the idea of working with different depths to create an interesting shadow play depending on how the modules were placed. Calm and sober or creative and playful, it’s up to the architect.”
