Model: Kai
Manufactured in: Spain-Europe (EU)
Designers: Jean Louis Irtzoki

For the design of the Kai collection we have worked with the prestigious French designer Jean Louis Irtzoki. Together we have created a system that is characterised by a harmonious blend of solid wood and different materials such as coloured lacquer and even marble. In other words, we combine fine, high-quality materials with a range of fresher, more modern elements. The personality of each individual piece will depend on the elements used to create it, with a wide range of styles available, from the more open to the more functional, and from the more colourful to the more sober and restrained.
