

UNIT

A movable wall, an exceptional writing surface and
a best-in-class sound absorber. Available May 1st.

Designed by HALLEROED.

LINTEX, Madesjövägen 17, 382 45 Nybro, Sweden.

A MOVABLE WALL.

Thanks to the retractable drop-wheels, UNIT can be transformed from a fixed wall into a movable object. This enables open offices to easily transform with team compositions, tasks and changing need for privacy.

AN EXCEPTIONAL WRITING SURFACE

UNIT is available with one- or two-sided glass writing surface in 24 selected colours. The surfaces are magnetic and made from low iron optical glass, for an optimum colour reproduction. UNIT is also available with our unique matt silk-glass for a non-reflective experience.

A BEST-IN-CLASS SOUND ABSORBER.

Every textile side on UNIT includes 48 mm of sound absorbent filling made from recycled polyester. With both sides' textile, UNIT has a total of 96 mm filling. This gives sound absorbing properties unmatched in this segment, making it perfect for any open office space.

We wanted to create a fixed wall that could be transformed into a movable object.

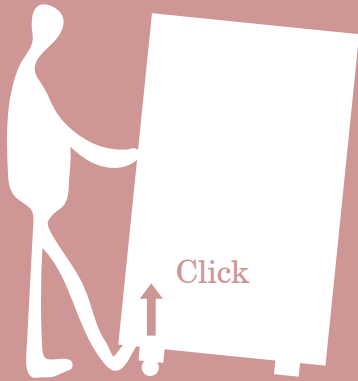

Thanks to the built in handles,
UNIT can easily be moved around.

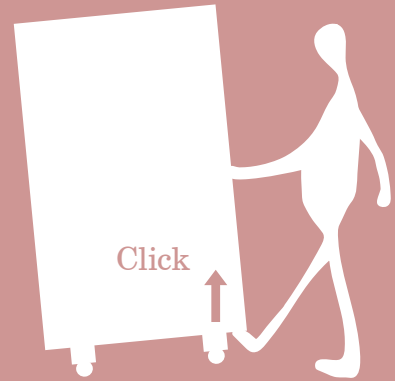

Up to 96 mm sound absorbent filling makes
UNIT a best-in-class sound absorber.

Retractable drop-wheels.
