COAT RACK

PRODUCT FACT SHEET

MIZETTO

BLOOM / COAT RACK

Bloom is a dainty clothing system that gives a strong first impression; a storage unit with added functions and dedicated space for umbrellas, bags and other things often left in the entrance.

Simple geometric shapes are combined in a way that refers to a flower's petals, which make up the knobs of the hanger.

Bloom is available in wall-mounted or free-standing variations, and can be combined with different elements to create a warm and welcoming atmosphere.

The powder coated metal comes in eight standard colors in combination with oak plywood.

DESIGN

Studio Nooi

MATERIALS

The metal frame is produced in powder coated steel.

Wall mounted version is available in nine colors.

Floor standing model is available in five colors.

Hook and table in oak veneer.
