PRODUCT FACT SHEET

MIZETTO

TRAYSI / STATIONARY

Traysi is the tiny detail that adds a little extra something to the office or workspace; a place to store and sort, or perhaps to keep and transport.

The trays, in sets of three, are as much a decorative sculpture as a functional and mobile way to store small beloved things. The playful design with multiple layers, in combination with exaggerated rounded corners, is inspired by nature's diversity. Like leaves on a vine, Traysi can link different office areas together.

The tray sets are available in three colorways which can be combined freely. The matt finish of the lacquer has a slight structure for extra resilience.

DESIGN

ADDI Designstudio
